

# STABBING BACK NEWS

First Edition collectors copy  
July 2009

Here is the brand spanking new StabbingBack newsletter. Whether you are a long time fan or just found us, we want to say welcome friend.

## The New [www.StabbingBack.net](http://www.StabbingBack.net)

Check out the new web site! Talk to the R3d33m3r, download ring tones, and marvel at our sleek new design. We wanna be your home page. Well, OK, at least visit once in a while? Ad free.

Some of you already asked why no personal photos? We've decided to set aside our egos, briefly, and focus on the project. Enjoy.

## StabbingBack Radio - Episode One - is up!

Twenty minutes of music, with interesting tidbits and news for fans (that would be you). Oh yeah, and it's free. So jump online and listen to us while you work or surf.

Watch for a new episode roughly once a month. We'll tell you when we post a new one...

## SHOWS???

Shows are gonna be rare, every few months. We did the plentiful gig schedule for a while and found it can wear on the band and the fans to continually be playing the same original music over and over. Plus, it leaves little time to write new material. But we do love to play and are really excited to be playing again soon.
